DATE MAILED: 08/12/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b> 10/064,316	<b>Applicant(s)</b> FURUKAWA ET AL.	
	<b>Examiner</b> Hung K. Vu	<b>Art Unit</b> 2811	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 6/30/04.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1,4,21,22,34-36 and 43-45 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1,4,21,22 and 44 is/are allowed.
- 6) ☒ Claim(s) 34-36,43 and 45 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## **DETAILED ACTION**

### ***Request for Continued Examination***

1 A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 06/30/04 has been entered. An action on the RCE follows.

### ***Specification***

2. The amendment filed 02/04/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "A single insulating layer 24 having a portion that extends on two opposing vertical sides of a second portion of the spacer 16 and contacts the gate electrode 14".

Applicant is required to cancel the new matter in the reply to this Office Action.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it

pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 34 – 36, 43 and 45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification does not disclose an insulating layer having a portion that extends on two opposing vertical sides of a second portion of the spacer and contacts the gate electrode, as recited in claim 34.

#### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34 – 36, insofar as in compliance with 35 USC 112, are rejected under 35 U.S.C. 102(b) as being anticipated by Wei (PN 5,369,303, of record).

With regard to claim 34, Wei discloses, as shown in Figure 9, a semiconductor comprising:

a gate electrode (16);

the spacers (40) adjacent the gate electrode;

a contact (48) having a portion that extends on two opposing vertical sides of a first spacer (40), the contact contacts a diffusion (42) adjacent the gate electrode;

an insulating layer having a portion that extends on two opposing vertical sides of a second spacer (40);

a masking layer (32) contacting the gate electrode for insulating the gate electrode from the contact.

With regard to claim 35, Wei discloses the masking layer caps at least a portion of the gate electrode.

With regard to claim 36, Wei discloses the contact has an upper portion that is larger than a lower portion that contacts the diffusion.

***Allowable Subject Matter***

5. Claims 1, 4, 21, 22 and 44 allowed.

***Response to Arguments***

6. Applicant's arguments filed 06/30/04 have been fully considered but they are not persuasive.

It is argued, at pages 5-6 of the Remarks, that the specification discloses a single insulating layer 24 having a portion that extends on two opposing vertical sides of a second portion of a spacer and contacts a gate electrode, as recited in claim 34. This argument is not convincing because claim 34 requires a contact having a portion that extends on two opposing vertical sides of a first portion of the spacer and an insulating layer having a portion that extends on two opposing

Art Unit: 2811

vertical sides of a second portion of the spacer and contacts the gate electrode. Based on the Remarks presented Applicant, it is argued that the spacer was a single layer and was formed around the gate electrode. However, it is not true all the time. First, the specification and the figures do not disclose or show that is the case. Second, the spacer can be two separated spacers and formed on two sides of the gate electrode. Teng et al. (PN 5,043,778) and Blake et al. (PN 4,899,202) are cited to support that the spacer can be two separated spacers and formed on two sides of the gate electrode

It is argued, at page 6 of the Remarks, that Wei does not disclose an insulating layer that contacts two opposing vertical sides of a second portion of a spacer and contacts a gate electrode. This argument is not convincing due to the introduction of new matter situations. Note that Figure 19 shows the contact (50) contacts the whole side of the spacer (16) so there is no exist of the insulating layer, and Figure 20 shows the insulating layer (138) extends on only one side of the spacer, not on two opposing sides of the spacer.

### ***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung K. Vu whose telephone number is (571) 272-1666. The examiner can normally be reached on Mon-Thurs 6:00-3:30, alternate Friday 7:00-3:30, Eastern Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie C. Lee can be reached on (571) 272-1732. The Central Fax Number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.

Vu
